

International Workshop
TOP-SPIN 3:
**Spin and Topological Phenomena
in Nanostructures**
Towards Topological Materials Science

IFW Dresden, Dresden (Germany)
April 25-28, 2017

Funded by the FP7 European FET-OPEN Project
"CNTQC – Curved Nanomembranes for Topological Quantum Computation"
(Grant Agreement N.618083)
in collaboration with the Grant-in-Aid for Scientific Research on Innovative Areas,
MEXT, Japan, "Topological Material Science"

TOPICS

- Structural, magnetic and electronic properties of nanostructures
- Spintronics and spin-orbitronics in low-dimensional systems
- Superconducting heterostructures
- Topological insulators and semimetals
- Topological phases in strongly correlated electron systems

CHAIRS

Carmine Ortix (Germany)
Makoto Kohda (Japan)
Paola Gentile (Italy)
Yoshiteru Maeno (Japan)
Denys Makarov (Germany)
Mario Cuoco (Italy)
Norio Kawakami (Japan)
Ivan Vera-Marun (UK)

Call for Abstracts
Extended submission
deadline
February 13, 2017

CONFIRMED INVITED SPEAKERS

Vladimir Falko (UK)
Francisco Guinea (UK)
Mathias Kläui (Germany)
Chuan Li (Netherlands)
Andrew Mackenzie (Germany)
Sadashige Matsuo (Japan)
Junsaku Nitta (Japan)
Shintaro Nomura (Japan)
Takashi Oka (Germany)
Takafumi Sato (Japan)
Leslie Schoop (Germany)
Denys Sheka (Ukraine)
Yuki Shiomi (Japan)
Oleg Yevtushenko (Germany)
Youichi Yanase (Japan)

LOCAL ORGANIZING COMMITTEE

Alexander Lau
Janett Schuster
